**DETAILED ACTION**

***EXAMINER'S AMENDMENT***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edwin Paul on 12/10/2003.

***Claims 6 and 7 have been cancelled.***

***Reasons for Allowance***

Claims 1-5 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claims 1 and 4, the closest prior art of record, Ivanov (Fig. 1) does not disclose at least the following limitations: the third, fourth, fifth and sixth current sources and parallel legs of second stacked PMOS and NMOS transistors and each of the second stacked transistors providing a bias for one of the first stacked legs.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
